VOLUNTEERING POSITION

WHO WE ARE

We are a family center. We have 7 different centers for different age groups, from babies to seniors. The kindergarten is in a different building but still belongs under RADKA.

WHO CAN APPLY?

Position for a volunteer who will be involved in the daily care and education of children. English is needed at a communicative level (at least B1). All activities take place under the professional supervision of a pedagogical team member according to the educational program Step by Step.

VOLUNTEER'S TASKS

Volunteers actively participate in the daily routine of the kindergarten. They help welcome and take over the children, support communication with parents, and join the morning circle including rituals, exercise, and short meditation activities.

They assist with preparing meals, supporting hygiene and good habits, and helping during rest time and bedtime stories. Volunteers also take part in educational activities, ateliers, games, theatre, and music sessions, as well as outdoor preparation and activities.

An important part of their role is intercultural learning – introducing their home country, language, and traditions to the children. Occasionally, they may help with afternoon or weekend events.

Volunteers also develop their own skills by learning Czech and participating in regular coaching, mentoring sessions, and evaluations.
