Recovering the forgotten remembrance

Hosted by la VÍbria Intercultural

ABOUT THE PROJECT:

REFORE NETWORK is a European project created by the association Auryn and funded by the European Union's CERV Programme. Its main goal is to build a strong network of European organizations and young activists committed to promoting historical memory, with a special focus on younger generations.

The project brings together participants and organizations from Portugal, Spain, France, and Italy to recover and value the remembrance of totalitarian regimes and resistance movements that marked Europe, particularly during the 20th century. Through European mobilities and local activities, REFORE NETWORK raises awareness of our shared history, fosters mutual understanding among European citizens, and promotes a common culture of memory.

At the heart of the project is the creation of open and diverse youth activist groups in each participating country, working on research, education, and awareness campaigns. REFORE NETWORK also places strong emphasis on human rights and democratic values, giving visibility to forgotten voices, especially women and exiled people, and creating spaces for reflection to counter hate speech.

OBJECTIVES OF THIS MOBILITY:

- To foster coexistence and joint learning among citizens from different European Union countries, especially among European youth.

- To promote social cohesion and European values.

- To raise awareness at the European level of spaces linked to exile and refuge during the Spanish Civil War.

- To address the next steps to be taken by the REFORE Network and close the project.

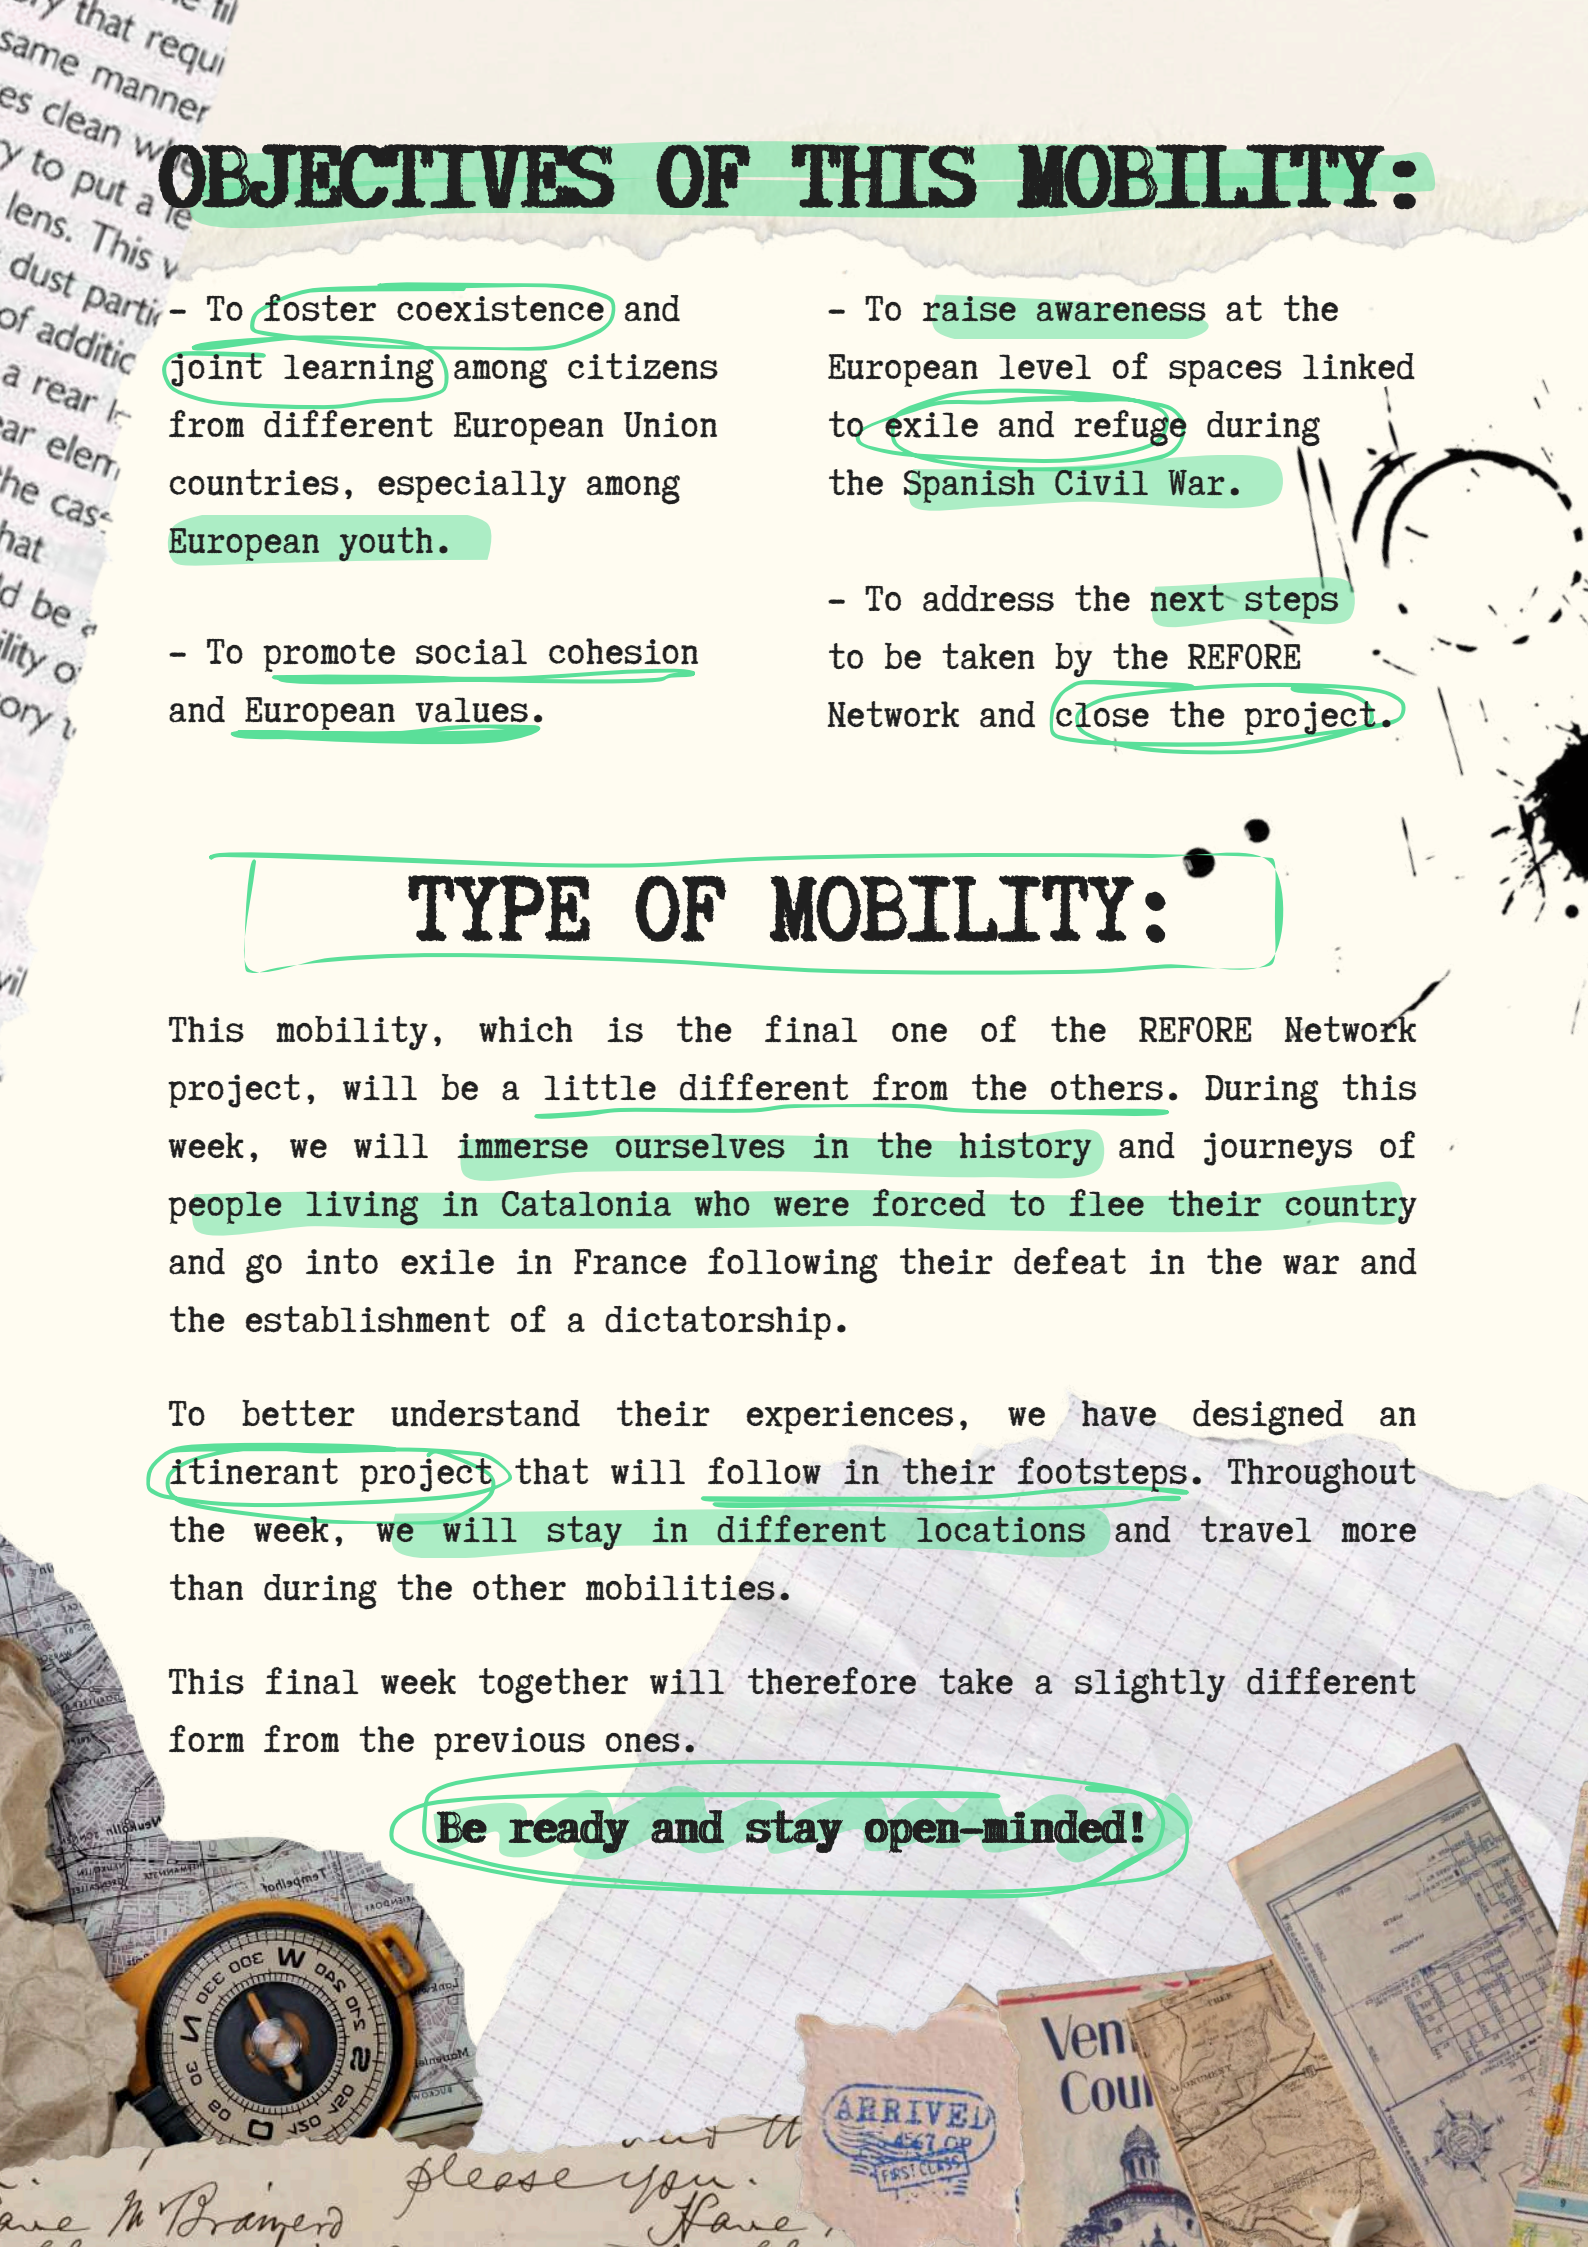

TYPE OF MOBILITY:

This mobility, which is the final one of the REFORE Network project, will be a little different from the others. During this week, we will immerse ourselves in the history and journeys of people living in Catalonia who were forced to flee their country and go into exile in France following their defeat in the war and the establishment of a dictatorship.

To better understand their experiences, we have designed an itinerant project that will follow in their footsteps. Throughout the week, we will stay in different locations and travel more than during the other mobilities.

This final week together will therefore take a slightly different form from the previous ones.

Be ready and stay open-minded!

PARTICIPANTS:

The project brings together 25 people in total:

- Intercultura (France): 6 participants
- Aequalitas (Portugal): 6 participants
