ALTAMURA

Altamura is a town of Puglia, in southern Italy. It is located on one of the hills of Alta Murgia, 45 kilometres southwest of Bari.

The city is known for its particular quality of bread called Pane di Altamura, which is sold in numerous other Italian cities.

The 130,000-year-old calcified Altamura Man was discovered in 1993 in the nearby limestone cave called Grotta di Lamalunga. The area of modern Altamura was densely inhabited in the Bronze Age (La Croce settlement and necropolis).

with who?

Associazione LINK

Link is a youth organization established in 2003 in Altamura.

Link works with young people and with the entire community, promoting intercultural dialogue and European citizenship. It organizes local and international activities such as youth exchanges, training courses, conferences and cultural events.

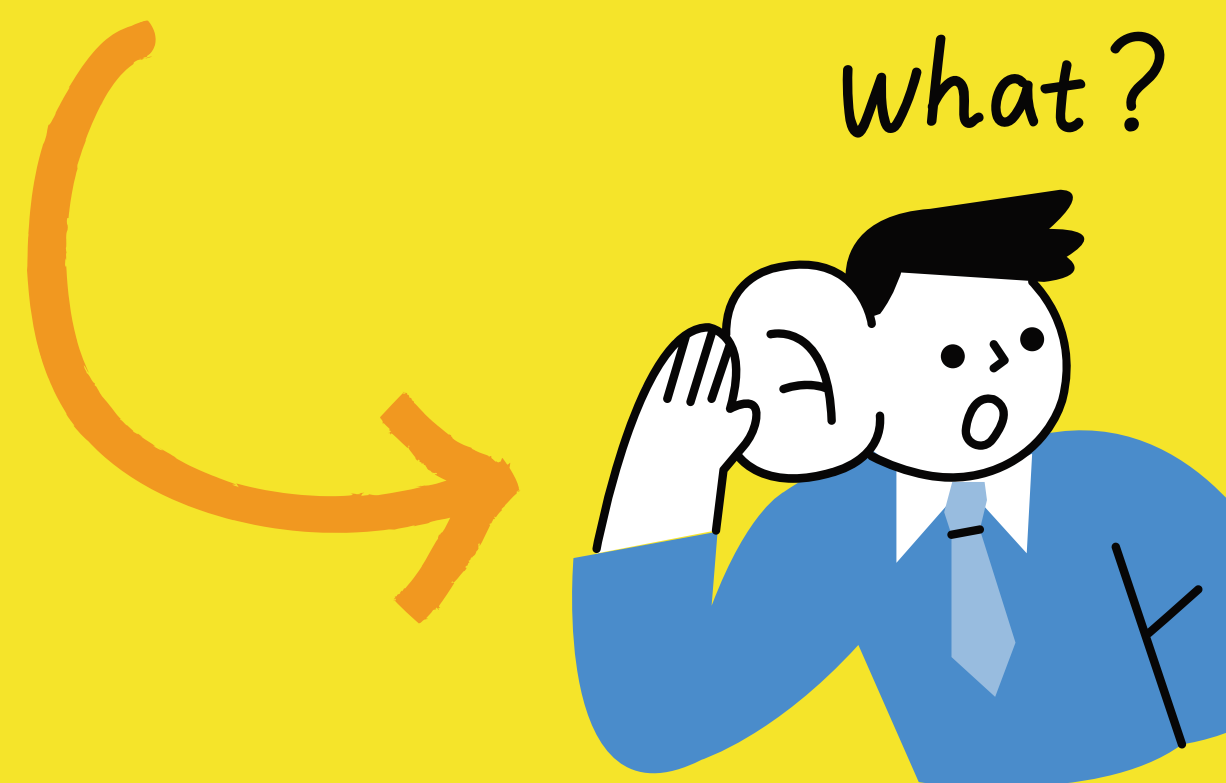

Since 2019, Link is responsible for the management of the community library, Agorateca, a library that also works as a cultural meeting point for citizens.

the project

Even if we are in 2022, there is still a lot to do when it comes to gender equality. For instance, women in the EU, on average, earn around 16% less per hour than men.

The main goal of this project is to reflect about the actual need of feminism, considering its past, its future and its varieties.

But what is feminism after all?

and what can we do?

There are many ways of contributing to a better and balanced world and literature might be one of them. How? Can we still use the old ways of doing a pacific revolution and then share it through the city? Come & let's discover together! :)

Agorateca is a community library in Altamura managed by Link. Its aim is to promote reading.

This place also hosts AGORADIO, an Italian-funded web radio that mainly produces podcasts

The participants will be hosted in Oasi San Giovanni, a place in the countryside, five minutes by car outside of Altamura. There is a...

There are two chances: one is by shuttle bus from (timetables [here](#)) and another one is by train.
