

ABOUT ACT

Association Communities for Youth is a NGO acting in City of Bailesti Soth West Oltenia region of Romania.

ACT mission is to develop, implement and support youth development programs built around the concepts of lifelong learning, mobility and associativity. ACT works to empower young people to participate actively in society to improve their own lives. The aim of this empowerment is to establish a wide-based community movement which encourages the positive involvement of young people in solving issues which affect them, treating them as resources, not as problems.

What will I DO in the ACT on IT project?

GENERAL OBJECTIVE

The general objective of the project is to raise the level of digital literacy and digital inclusion of both the target group and the 10 volunteers while also contributing to their personal and professional development.

The project will consist in:

1. Create, organize and implement non-formal 144 workshops over the course of 6 months. This objective shall be achieved by involving the 10 foreign volunteers in the design and implementation of non-formal activities workshops aimed at rising digital media competencies.
2. Reach over 160 disadvantaged youth in the digital literacy workshops. We aim to address the project to those students that come from disadvantaged backgrounds (socio-economic barriers and educational barriers mostly) and have fallen behind on their educational objectives or cannot afford the costs of furthering their development. Research shows that students from rural area, mono-parental families, families who are struggling economically are the most vulnerable to the dangers posed by uncontrolled and uninformed access and use of the online environment and digital media. The partners we are working with locally have an abundance of students from these categories.
3. Raise the level of knowledge and digital media competencies (and overall digital skills) of beneficiaries by at least 60% over the course of their participation in the workshops. The objective shall be achieved by designing non-formal learning programmes that engage the beneficiaries while the increase shall be measured using non-formal evaluation (and self-evaluation) methods combined with tracking their scholar progress.
4. Promote the Solidarity Corps Programme and its opportunities to at least 300 students from Craiova. Achieving this objective complements the other in the way that it give students a practical tool to further advance their personal development by accessing one of the many positivity's offered by the solidarity core.

The above mentioned activities are the general overview but **each volunteer has the opportunity to propose, implement and carry on new types of activities bases on previous experiences, personal preferences, skills and abilities and well as have direct control over the methods used to implement the activities.**

What will I learn in the ACT on IT project?

Our methodology of learning by doing or experiential learning places the volunteer at the center of his/her learning process and encourage commitment to it. Each volunteer will have a personalized development plan that targets personal skills as well as professional skills, a mentor to help guide the volunteer and a counterpart to guide him in working with the target group in the working institutions.

In the project we will be employing a Learning by doing methodology based on a 4 cyclical stages model:

1. Concrete Experience – going out and engaging with the activity
2. Reflection on that experience on a personal basis – self-reflection and guided reflection assisted by the mentor which aims at derivation of general rules describing the experience, or the application of previous experiences and knowledge to it
3. Abstract Conceptualization – supported by the participatory planning model and dynamic role distribution practiced the management team. In this stage the management helps the volunteer in the of ways of modifying the next occurrence of the experience
4. Active Experimentation – turning the abstract into concrete activities and restarting the cycle at no.1

All throughout the learning process and the project **you will be assisted by the ACT team** and a **personal mentor** in managing what, when and how you learn all these skills.

At the end you will receive a **Youthpass certificate** which is a **European Instrument for recognition and certification of skills** acquired in ESC

Practical Arrangements & Financial aspects
