PEACE
CRANE

11-20 April 2024
Altamura, Italy

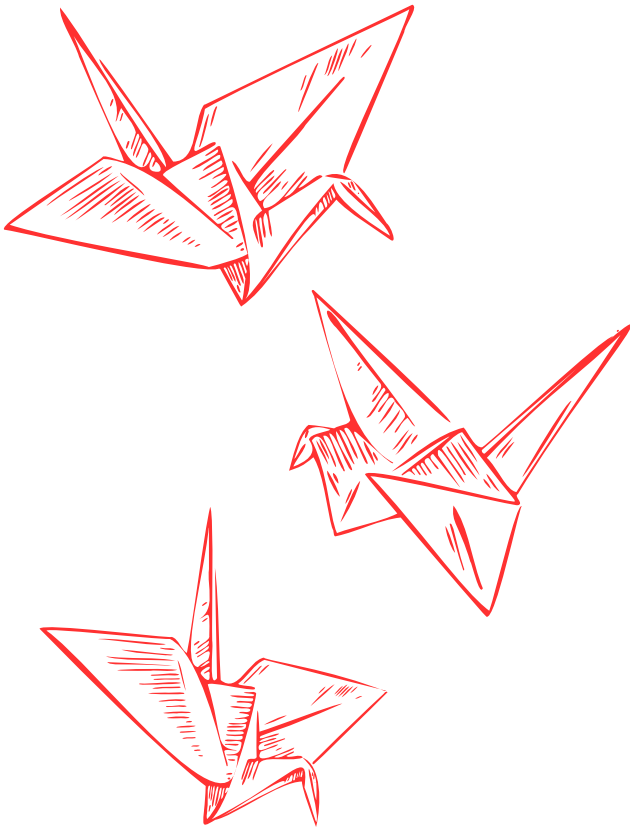

WHAT IS PEACE CRANE?

Peace Crane is a Youth Exchange project about **peace and history**.

Through origami and other artistic workshop participants will explore different ways to peace activism and active citizenship.

The main objective of the project will be to prepare a closing event open to the community, where participants will present the works produced during the project to the local community. The project is built on the combination of reflection workshops on the theme of peace and practical art workshops.

PARTICI- PANTS PROFILE

The project is for participants aged **between 18 and 25 years old**.

Both program and partner countries can participate in the project.

We ask organizations to compose gender-balanced groups with **5 participants + 1 leader** (+20 years).

There is no special requirements for participants. Motivation, willingness and sensitivity to the theme of peace and artistic expression are key.

A SPECIAL REQUEST

There are many activities we have planned for **Peace Crane**. For some of them we need you. No spoilers! We are not telling you what to do, we are just asking you, before you leave for Italy, to do these two activities:

- Bring some **newspapers** from your country;
- Bring a '**war story**' from your country, which your relatives or acquaintances have told you and which has particularly stuck with you.

ACTIVITY SPACE

The activities will be hosted in [Agorateca](#), a community library in the periphery of Altamura. This is the place where Link and its volunteers carry out their activities.

Here there is wi-fi connection, a garden and a comfortable indoor space for activities of different kind.

Several workshops will be held here. Link staff will provide transportation from the accommodation to Agorateca every time it will be needed according to the activities schedule.

ACCOMODATION

The participants will be hosted in Oasi San Giovanni, a place in the countryside, 15 minutes by car outside of Altamura. There is a kitchen, a large room for activities and eating together, a court for sports, and a garden where it is possible to do activities. The participants will sleep in a dormitory, with six persons per room. There is also a separate room for the leaders of the project. We will provide transportation between the accommodation and the activity space. Food will be provided to the participants, with the possibility to accomodate for special diets.

Good to know:

The place is spartan; bathrooms and dormitories are quite old-fashioned and there's no wi-fi. But with a little adaptability and flexibility, everything will be perfect!
