1 Vacancy

Alzheimer León has been working for 25 years improving the quality of life of the Alzheimer patients and their families, and also making society awareness of that disease.

The purposes of the association are to improve the quality of life of the patients, to promote the investigation, to protect the affected people rights, to support the families and to inform society for developing the early diagnosis of new cases.

A multidisciplinary work team, with more than 60 professionals, social workers, psychologists etc. is in charge of developing the different programs, centres and services for the patients.

The volunteer will perform tasks connected with the following sections:

- Participating on daily activities with patients, with an initial training about the accompanying Alzheimer participants.
- Taking part on the disseminating and promoting activities.
- Taking part on the intergenerational activities of the organization, such as theatre, going out activities, etc.
- Participating in other activities such as environmental workshops, choir, yoga.
- Develop dissemination activities about Erasmus Plus and the European Solidarity Corps with youth at least once a month.

On the other hand, from the Alzheimer Centre we offer all the training that the volunteer will need and a close accompaniment of her/his growth.

HOW TO ARRIVE
