

ITAC Itinerary workcamp 08-19/07/22

2 individual ESC places for Youngsters with fewer opportunities !

The ITAC (for Itinéraire Touristique des Abbayes Chalaisiennes meaning Tourist Itinerary of the Chalaisian Abbeys) project aims to promote the Chalaisian sites through the cooperation of the Serre-Ponçon-Ubaye and Gap-Tallard-Durance territories, in the High Alps.. It is organized in the frame of the organization Villages des Jeunes, member of Solidarités Jeunesses.

Objectives:

- Identification of itineraries between the Chalaisian abbeys
- Structuring of a tourist and heritage itinerary product
- Communication and promotion of the tourist product
- Creation of a shared documentary database on the Chalaisian sites

The project

It is the first time that a group of young people has been offered the opportunity to try out this new itinerary as part of an itinerary walking project. The main objective is to give the opportunity for young people to discover the region and its rich history and heritage, through a green mobility project, focused on the creation of social relationships through intercultural encounters. This project will bring us into contact with nature, in both tourist and isolated areas, encouraging the sharing of experiences and solidarity between all participants. Cultural events and social moments are also planned in the itinerary, and the young people will work together to create an illustrated travel diary.

Concretely

- Dates: from Friday 8 July 2022 to Tuesday 19 July 2022
- Duration: 12 days of project including 7 days of walking
- Number of participants: 8 to 10
- Supervision: - Latifa Cheikhi (educator) and Thomas Gauthier (educator and mountain guide)
